Description	Type	Upload Date
September 20 2022 Minutes	Cover Memo	11/30/2023

BOARD OF ADJUSTMENT
September 20, 2022 - 5:00 PM
Bryant H. Womack Building
40 Courthouse Street
Columbus, NC 28722
MINUTES

Members: Chris Jones, Lisa Krolak, Frank Monterisi (Chair, non-voting member), Betty Hill, Hal Green, Michael Axelrod
Staff: Hannah Lynch, Cathy Ruth, Jana Berg

1. Call to Order

Frank Monterisi called the meeting to order.

2. Approval of Agenda

Hal Green made a motion to approve the agenda, Betty Hill seconded. A vote was taken and all were in favor. The motion passed unanimously.

3. Approval of Minutes

A. Draft Minutes - July 5, 2022

Lisa Krolak made a motion to approve the minutes from the July 5, 2022 meeting, Chris Jones seconded. A vote was taken and all were in favor. The motion passed unanimously.

4. 2022-06 (SUP) - Meadowbrook RV Park, Paul Deck

- Frank Monterisi: We are ready to proceed with an application for the Meadowbrook RV Park.
- Jana Berg: The applicant has an existing permit to operate the campground on the site with the approved site plan at the previous meeting. For clarity, the applicant is requesting a modification of the permit. If the Board does not approve the modification, the applicant has the right to develop the RV park according to the previous approval. If the Board decides to issue a new permit, it will be substituted for the previously approved permit.
- Frank Monterisi: Frank recused himself from the first meeting because he had a business relationship with Paul Deck: owner of McCurry Deck car dealership. Since that time Mr. Deck has sold the business, but still works there. He explained he would recuse himself, however run the meeting as the Chair, but only do mechanics, basically to moderate the meeting.
- Frank Monterisi: Read the overview of the Board of Adjustment's

procedures, expectations, and responsibilities for evidentiary hearings. The board was asked if there were any ex-parte communications or relationship with the applicant to be disclosed to which there were none.

- Jana Berg: The Chair and counsel will make dispositive evidentiary decisions.
- Frank Monterisi: Agreed with counsel, and swore in Hannah Lynch (Zoning Administrator), Scott Roach, Paul Deck: Wilda Luckadoo, Kathleen Van Arnhem, Linda Roland, Angela Luckadoo, Tom Horonzy, Victor Barbato, William Van Arnhem, and Tyler West.
- Frank Monterisi: Requested Hannah Lynch to present.
- Hannah Lynch: Presented the packet and Power Point presentation as evidence and gave presentation.
- Frank Monterisi: The packet will be identified as Zoning Administrator 1 (ZA-1) and the PowerPoint presentation will be identified as Zoning Administrator 2 (ZA-2). ZA-2 as an overview of ZA-1. ZA-1 contained:
 - EX-A. General Application Form, site plan, updated presentation, and 2020 presentation submitted by Paul Deck for Meadowbrook Development, Inc.
 - EX-B. Zoning Permit / Application and receipt of \$100.00.
 - EX-C. Notice of public hearing and signed and notarized Affidavit of Mailing to adjacent property owners, property owner, and applicant.
 - EX-D. Signed and notarized Affidavit of Posting of notice of public hearing.
 - EX-E. Recorded deed in the Register of Deeds Office for Tax Parcel P130-95, dated November 16, 2007, Book 360, Page 397-398.
 - EX-F. Recorded deed in the Register of Deeds Office for Tax Parcel P130-40, dated December 27, 2012, Book 397, Page 1115-1117.
 - EX-G. Recorded plat in the Register of Deeds Office for Tax Parcel P130-95, Dated November 16, 2007, Book E, Page 1886.
 - EX-H. Aerial view from Google Earth of Tax Parcel P130-95 & P130-40.
 - EX-I. Polk County Property Card Tax Record for P130-95.
 - EX-J. Polk County Property Card Tax Record for P130-40.
 - EX-K. Aerial view of P130-95 & P130-40 with the surrounding parcels' current uses and zoning from the Polk County GIS site.
 - EX-L. Sign posting locations and photos taken from the site.
 - EX-M. Conditional Use Permit for RV Park and/or Camp Area, 2020-02 (CU).
- Frank Monterisi: Does the board have any questions? Since there are none, Mr. Deck, please proceed with your presentation.
- Paul Deck: He requested his presentation be placed into evidence.
- Frank Monterisi: He placed it into evidence - Exhibit Applicant 1 (EXA-1).
- Paul Deck: In October of 2020 a presentation was given, it was approved

and there was some restrictions added to with the approval. We began detail work and as we looked at those restrictions, most made a great deal of sense to us. We understood why they were there, one hundred foot setback to keep us from being too close to any neighbor. But as we evaluated the location of Phase 1, we saw that with that hundred foot setback that it limited what we could do on that side and would require a lot of grading, so we started looking at an alternative site. And that was when we went to what was called Hilltop in the original presentation. We used that hundred foot setback from our neighbor to make sure we shifted and could screen anything from any of our neighbors. For safety purposes, the entrance was placed in that area, because there's a crown there on the road. You may be able to see from those photos. We chose the high point as a safety consideration for the entrance. The rest of the RV Park is going to be set back on that site and screened where it will not alter any of our neighbor's evenings or sites. There was another restriction for quiet hours after 10:00 p.m. – 7:00 a.m. We will be observing that. The new master plan is showing Phase 1 and 2. We are increasing the size of Phase 1, the overall size is not increasing. Phase 1 will have 29 sites. In the design, we made sure the restrictions will be followed, while trying to create some space within the RV Park. I'm pleased with how it's progressed, and was not expecting to have to come before the board again, but when I did submit the update, I learned that would be necessary. So that brings us to where we are, but I'd be happy to answer any questions.

- Lisa Krolak: For clarity of the master plan and the new plan (page 18 of 103).
- Paul Deck: What was Hilltop has progressed to the new master plan, fitting in the same property.
- Hannah Lynch: Phase 1 is 29 units and Phase 2 is 43 units.
- Michael Axelrod: It appears 18 and 20 are identical, but 20 has an updated RV Master Plan, are we supposed to be looking at the comparison between the updated plan and the old plan?
- Frank Monterisi: For clarity, everything that is new is from pages 16-20 and the subsequent approval is from 21 on, is that correct?
- Michael Axelrod: Page 19 shows the original of the entire project. It does not show a comparison of the entire project, only Phase 1 and 2 on pages 18 and 20?
- Paul Deck: If you go back to the original master plan on page 17. Phase 1 was identified along Meadowbrook Road and there were going to be 16 sites, but as we evaluated it, it became evident it was not feasible to do that area in Phase 1. So that's what led us to the new master plan that you have now for Phase 1 to Phase 2.
- Paul Deck: Page 17 was the original master plan, and page 19 is the updated master plan. And a blow up on page 18 of new master plan, but no blow up of original plan.
- Michael Axelrod: It is hard to compare the scale.
- Paul Deck: On the previous approval Phase 1 was 16 units, new master plan is for Phase 1 to be 29 units. Previous approval for Phase 2 was 40 units, new master plan for Phase 2 is 43 units.
- Lisa Krolak: What Phase 2 was?

- Paul Deck: It is the new Hilltop.
- Betty Hill: What about Phase 3, is it was going to be eliminated?
- Paul Deck: They had not done the plan for Phase 3, but the total number of sites will not increase from original approval. The total number of sites remains the same at 96 sites.
- Hal Green summarizes, what you are doing is taking Hilltop site and adding 60 sites to the Hilltop site, while subtracting 16 sites from the original plan Phase 1, but now will have no sites on it all due to the setbacks and other things? The new master plan has Hilltop site, Phase 1 and 2, a total 72 RV sites? You are concentrating sites in one area?
- Paul Deck: We are moving 16 sites and shifting some of the sites from Phase 3 to Hilltop.
- Michael Axelrod: How many acres is the modification that includes Phase 1 and 2? The original master plan called for 6.2 acres for Hilltop. It's practically doubled the units on this area.
- Paul Deck: Not sure of acreage, but approximately six acres.
- Chris Jones: What do you forecast your clientele to utilize? Is it primarily golf focused?
- Paul Deck: Customers stay 2 or 3 nights, playing golf, exploring the area. Primarily golfers, but some people won't be golfer.
- Chris Jones: What do you have in place for the kids?
- Paul Deck: Walking trails, not a lot of amenities at first, but plans for a pool and play area in the future.
- Chris Jones: What kind of alcohol policy and how do you plan to manage quiet hours?
- Frank Monterisi: All that covered in the first approval. That is not what he is coming before this board for.
- Hal Green: From the plan you went from 40 to 56 units and went as high as 72 units at approximately 10 or 12 per acre, about 400 feet devoted to an RV site, assuming 6.2 acre. Could you have gotten greater density?
- Paul Deck: He could have gotten more density, but wanted to create some sense of space, an outdoor play area, and make it attractive desirable place to visit. The play area can be outside the 6.2 acre area and the walking area. It's convenient to the clubhouse area. Part of the setback area can be used as a walking trail.
- Frank Monterisi: Is the issue whether we can amp up the sites in the area?
- Michael Axelrod: We do not know if it is 6.2 acres. If I do compare the new plan on page 19, two dotted areas, Phase 1 and 2 from the dotted area of the original 2020 plan. He is questioning the area of Phase 1 and 2 to compare the differences. It's not the same shape from the 2020 plan to the 2022 plan. How many acres is the new Phase 1 and 2?
- Frank Monterisi: Let's give Mr. Deck a few minutes to calculate the acreage.
- Scott Roach: is it approximately 6.2 acres and Phase 2 is essentially the same size. It's approximately 12 to 13 acres for the 72 units.
- Jana Berg: On the evidentiary, we're considering whether or not to grant a new special use permit. Granted the special use permit is a modification of the prior issued conditional use permit, but we still have to address each and every one of the questions and we can't rely on the prior hearing. We still need to hear testimony related to the answer to each of the

findings of fact. And so when Chris brought up the question as to what measures will he have in place with respect to alcohol sales and something else, I think it's appropriate when considering the harmonious use. I think it would be good to hear that testimony. This is a new permit. We already granted the previous permit based on reliance of what he: that was going to be done or how the plan was going to be developed. We have a new substantial modification, material modification. The concentration of the units are going to be denser in a particular area. It is appropriate to revisit the answers to these questions again, with respect to the harmony and the other things, property values and what not, because it is a material change necessitating a new permit. We're not here to say we previously granted the permit because we found that it met the criteria. We did and that's just decided issue. The issue before us today is in regard to this material modification, what impact does that have on these questions? I know that sounds like a bunch of legal jargon, but if you want to ask questions, about the impact of the concentration, on harmony of use, property values and things of that nature, it's entirely appropriate. He can refer to his prior testimony, but each question stands alone and each hearing stands alone.

- Frank Monterisi: We have had instances before where we referred back to the previous case.
- Jana Berg: He can say that I'm going to follow my prior policy, which is. Each question stands alone and if the measures that he will have in place, he can say is the same as last time and that was.
- Frank Monterisi: Okay, thank you. Sorry for interrupting you Chris.
- Chris Jones: No worries. Mr. Deck, since the footprint looks more condensed, have you put an updated plan in place for alcohol and quiet times?
- Paul Deck: We had put in place some rules, and we were getting ready to build the RV Park and we were following all the guidelines we had been given. To observe quiet time after 10 p.m. and that there would be someone available to police that area, if needed, if there were any calls about to be too loud or out of order.
- Chris Jones: How will you monitor it? Will someone be out there full time?
- Paul Deck: Not full time, but someone will be available on call. During the day we will operate the RV Park with the staff that we have.
- Chris Jones: What's going to happen to a camper if they're out at 11 p.m. and there's a call from a neighbor,
- Paul Deck: There will be someone to go over there to investigate see what's going on.
- Chris Jones: Are you going to have a set plan in place for repeat offenders or how are you going to manage that? That's just going to be a tough piece to manage when you don't have somebody on site 24/7? I'm just concerned with that.
- Paul Deck: We have will have someone there within ten minutes from when we are notified.
- Chris Jones: Do you have a plan for enforcing alcohol? I mean, we all know the golf most golfers drink, right? And if you're going to have golfers out there, and things could get a little rambunctious. Do you have an alcohol policy?

- Paul Deck: We do not have an alcohol policy in place at this moment. We haven't published all our rules yet, but we've spent the past year and a half working on and modifying the plan. We were waiting on soil scientist to come out to do their review, and give us the approval, which we have that. We would have that plan in place before we open.
- Lisa Krolak: Please confirm the number of units will be 96 units and wanted to know if they were approving phase 1, 2 and 3?
- Frank Monterisi: We are approving the application as it was presented.
- Michael Axelrod: He did have a question about the Hilltop. Between the original is the setback from the boundary to the left side of it is smaller than the original plan, is it less than 100 feet that was required by the conditional use permit? The setback is much greater in the proposed modification of the plan.
- Paul Deck: When we were given approval, there were some modifications as part of that Board of Adjustment approval, and one of them was 100 foot setback shall be required where the RV camp area meets or adjoins a public right-of-way or properties not owned by the developer. We incorporated that into the design, that's why the setbacks are greater in than the modified plan.
- Michael Axelrod: Do you know what the original setback was on your original master plan from 2020?
- Paul Deck: No, sir, not without going back and looking back.
- Michael Axelrod: Do you know what the regular setback of the property was?
- Hannah Lynch: It is in Multiple Use which is 25' front and rear, 15' from the sides for structures.
- Frank Monterisi: Does anyone else have any questions for Mr. Deck?
- Tom Horonzy: My property is to the west. Do you have a timeline as to when Phase 1 will start?
- Paul Deck: Hopefully beginning this year.
- Tom Horonzy: Where are you placing dumpsters? I'm worried about the cattle out there. When will Phase 2 start?
- Paul Deck: It will be driven by the demand.
- Tom Horonzy: Where is the waste going, is it going to be hooked up to a septic?
- Paul Deck: We have an engineer designing the system.
- Scott Roach: There will be an onsite waste water system. It is an engineered option rather than going through the Environmental Health Department for Polk County, it is a larger scale of a septic system, according to the requirements. It must meet all of the State requirements. A soil scientist goes out and does the evaluation.
- Paul Deck: The drain fields are going down the hill, where some of the pine trees are now. Most of the slope is from the fairway towards the range.
- Tom Horonzy: I thought I noticed on your introductory page it looks like there were changes. Are you going to do campers in there, or other things like tree houses and such, or all RVs? Are the walking trails going to be around the exterior? Where will the pool be?
- Paul Deck: All RVs and walking trails will go past that area. The pool will be located near the range and clubhouse, changing the ninth hole.

- Angela Luckadoo: She doesn't want RVs and things in her back door. She is near the Phase 3. Enough ruffraff going back and forth. Owns property around the area, resides at the corner of Poors Ford and Lee Cudd. If something happened to me, they couldn't be at my house in ten minutes.
- Lisa Krolak: Are dogs allowed. Kids wander, will you mark the property boundaries?
- Paul Deck: We have not finalized rules, we did have something about dogs being allowed, that could be added, leashed. He will mark the boundaries. Phase 1 and 3 is 7.75 acres.
- William Van Arnhem Varnh: It's a little after the fact that this point, but if they put signs up like they did this time in 2020, that's a no wonder nobody knew about it. I live right up the road from this, and I'm up the hill and they're going to have dogs or going to have 100 campsites. Did anybody study any of the traffic problems or noise that might be here? What about power? We get black outs now and it rains outside. It doesn't seem like anybody study the impact it is going to have on the neighborhood. We didn't get notice. This was in the middle of Covid. We don't know if the police are going to come. A lot can go down in ten minutes.
- Jana Berg: The purpose of you speaking is for you to ask him questions about his testimony. You will have time to testify for yourself to the things you just:.
- Kathleen Van Arnhem Varnh: Will campers have fire pits?
- Paul Deck: Yes, they will have fires.
- Kathleen Van Arnhem Varnh: What about people that are elderly and might have asthma questions? What about electricity? We already have brown outs. Are they adding infrastructure? We rent our house out for Air BnB and we are already struggling to do that and now I see that you are going to be pulling power from me.
- Paul Deck: I don't know if they are adding infrastructure.
- Jana Berg: Remember the questions, not the testimony.
- Kathleen Van Arnhem Varnh: What about the extra traffic? I see where this is going to be detrimental to my property.
- Frank Monterisi: Hannah Lynch please address signage.
- Hannah Lynch: There is a requirement to post the site 10 to 25 days before the hearing. We are required to post onsite, and we are required by the North Carolina General Statutes to send notice to all adjacent property owners. The signs were posted in the same spots they were posted in 2020.
- Kathleen Van Arnhem Varnh: You dotted your i's and crossed your t's, but that doesn't do anything for people that are two or three properties away. We got no notification whatsoever in 2020. The signs are this big when you're going 55 miles an hour passed them, and only three of them are on the main road.
- Frank Monterisi: To address applicant for questions, and other comments were not pertinent.
- Hal Green: about testimony previously about traffic? How many people were visiting the course weekly? And have you had any problems with traffic during those times?
- Paul Deck: 100 to 120, and up to 150 people on the weekend to golf

- course. And we have not had any problems with traffic.
- Lisa Krolak: For an explanation of entrances. And will those be shared entrances?
 - Paul Deck pointed out the entrance areas, and he: we hope so. There are two entrances. This is a club house right here. It's also possible to loop around Meadowbrook Road and come in from the other side of Poors Ford Road. We do have some traffic come in that way as well. But everyone has to come into the parking area here at the clubhouse area from either this side of Meadowbrook Road or the other end of Meadowbrook Road.
 - Lisa Krolak: If golf carts are used for RVs. The people in the RVs, can they use golf carts to drive from their RV to the golf course? Will there be golf carts running back and forth?
 - Paul Deck: We do not plan for golf carts for use in the RV Park.
 - Lisa Krolak: What if they bring their own?
 - Paul Deck: Then they would have to use the trails that are allowed golf carts.
 - Linda Roland: About crossing the road, and: it was dangerous. Next to Mrs. Luckadoo property, I believe it is the third phase, they will have to cross Poors Ford Road over the golf course. Are they going to walk across Poors Ford Road? Traffic goes down that road at 55 and 70 miles an hour all the time. There are already beer cans along the road. What's the speed limit?
 - Paul Deck: This would require them to cross the road. Speed limit is 55.
 - Lisa Krolak: Frank, can we add something about a pedestrian crossing?
 - Frank Monterisi: Jana.
 - Jana Berg: It is up to the NCDOT, but you can request that he ask for NCDOT for a golf cart crossing sign and marked. We could require that they apply to the NCDOT, but it's up to the NCDOT.
 - Chris Jones: Are you considering the pond with chemical run off from the golf course itself? Or has the water been tested?
 - Paul Deck: It was designed to capture run off, it has not been tested. We can have it tested.
 - Betty Hill: I'm having a problem with Phase 3, there's nothing in there. It seems like everything is up in the air.
 - Michael Axelrod: It's different from the original master plan, there's a gap. It's on Meadowbrook Road where the clubhouse is, it doesn't show an RV check in on the new site. Phase 3, will require an additional hearing?
 - Jana Berg: Phase 3 is empty, so how can we approve it? We need some site specific plans.
 - Michael Axelrod: Phase 3, will it need to come back?
 - Frank Monterisi: The same amount of unit's remains, Phase 1 and 2 is 72, and total will not include Phase 3, unless it is listed. But since this is a material change, changes the density, what is formally on Phase 3, it is a material change on his site plan. It is requiring a new Special Use permit, if it is not approved, it will fall back to original plan.
 - Hal Green: Because the 100 foot setback, page 17 shows 100 foot setback.
 - Jana Berg: That is not a substantial modification. Density was approved within same footprint.

- Hal Green: Can he expand to the area submitted? Hilltop 40, but because the setback, he won't fit in the same footprint, change the 6.2 acreage to 7.75 acres which would comply with setbacks.
- Jana Berg: We changed the site plan for him by requiring 100 foot setback, as long as it is the same built upon area and the density would not change.
- Hal Green: Can you clarify, if we deny?
- Jana Berg: Her interpretation is that the setback area was moved to the outside boundary.
- Hal Green: He would be free to move the footprint in a different direction, and that is not a substantial change. Could he still do that with the existing footprint? 40 units on 6.2 acres.
- Frank Monterisi: Did we by imposing a setback then create a hardship, no? Is the 100 foot setback causing a hardship?
- Jana Berg: No.
- Hal Green: He could put a pool there?
- Paul Deck: As we have tried to address issues. We tried to select Hilltop as the most viable spot and had more room, meeting the constraints the board had given us. It's preferable to put as many units in one spot rather than going into the ravine. We thought we were being good neighbors and efficient.
- Michael Axelrod: The original plan of Phase 1 was The Knoll with 16 units. Under the new modification, there is nothing there. Can you tell us what your plans are for that area, is that not suitable for the RV area?
- Paul Deck: Due the 100 foot setback, we would have to move the road because of the ravine. We don't have plans right now to approve that site. At one time we had talked about putting homes on that site, whether that became viable again we will have to see. We would have to come back and get an approval for that site.
- Michael Axelrod: From the original plan 40 units on 6.2 acres equals 6.45 units per acre. Under the new proposed plan 72 units on 7.75 acres equals 9.29 units per acre.
- Hal Green: If you did a 25% increase, 40 units have already been approved, you would be able to put 50 units, if you expanded the box. Moved it over and increased it 7.75 acres, he could add 25% or 10 more and maintain the same density.
- Michael Axelrod: but he still needs to submit for a permit.
- Hal Green: Agreed.
- Jana Berg: Your analysis sounds correct.
- Tom Horonzy: How did you get the change of the acreage, by looking at the maps, it seems like it is off?
- Hal Green: I'm taking his word for it. If you are able to increase the box by 25% then you could increase the RV site by 25% and get the same density.
- Paul Deck: I understand.
- Frank Monterisi: If there were any other questions for Mr. Deck.
- Linda Roland: How many people, if you are increasing the RVs? I've worked at three different RV dealerships. You don't have a plan on alcohol, you don't have a lot of plans. Each RV can hold 4 to 8 people for sleeping. That's a lot of people. And you say that you don't have water

testing done on that water area. You have a private engineer coming in rather than the Health Department. This all sounds a little fishy.

- Paul Deck: The RV Park has been laid out using a landscape architect and engineer. The engineer, Scott Road from Odom Engineering is here. The landscape architect is my son, Brian Deck, with a master's degree in landscape architecture and lives in Boulder, Colorado and has done some work for the family. We have city water, a waterline from Inman Campobello. We waited a year and a half to have the soil scientists test the land, which Odom Engineering recommends. I don't think this is just a loose interpretation, a lot of time and effort has been made for this plan.
- Linda Roland: You are not answering all the questions. Is there chemical runoff?
- Paul Deck: If there is any run off from chemicals it is from the golf course, and we have had no issues in the ten years since those holes have been there.
- Linda Roland: That's a lot of waste going into the ground.
- Scott Roach: Each of these systems are being designed by 120 gallons per day, as per the State of North Carolina requirements. I guarantee you that they will never see 120 gallons per day for each system. Being on the water system, they can track that after a year, as far as water usage goes. It will show they are well under that.
- Linda Roland: Can you guarantee that in writing that his cattle are not going to be polluted, or my stream that runs alongside of my house?
- Scott Roach: I'm telling you that it was designed in accordance with the State of North Carolina's regulations, just like your septic tank and drain field is at your house.
- Linda Roland: The water has not been tested yet?
- Scott Roach: It has nothing to do with this approval. The chemicals have been there since the golf course holes have been there.
- Lisa Krolak: If the Inman Campobello line is already out to the facility and do you have access to it.
- Paul Deck: It goes Meadowbrook Road. We do have access to it. We meet all the regulations for spraying.
- William Deck: He was the golf professional for 28 years. The water was tested, when it would come off the property in case any of the neighbors: it killed our cattle or anything. There was never any deviation on the chemical levels by the time it entered the property or left the property.
- Jana Berg: He was not sworn in. His testimony cannot be considered.
- Frank Monterisi: We can't hear from you since you weren't sworn in.
- Angela Luckadoo: There are concerns for safety. And the area that was Phase 1, it looks like trolls live out there. She knows golfer drink and you can't control it. Who is going to be there in ten minutes? We have called emergency and we are lucky if they are there in 30 minutes. I'm asking about the beautification of the neighborhood. Saturday night a golfer went into the gully by my house. There doesn't seem to be rules. My husband takes care of William's house Mike and Barbara's house. The beer cans we pick up is unreal. The speed of the cars on the weekend has been reported. We know there is nothing you can do. It causes concern for me. People are going to do their own thing and drink.
- Frank Monterisi: At the prior hearing wasn't about EMS getting out at the

- site, he was talking about someone on the ground in ten minutes.
- Angela Luckadoo: What about law enforcement and EMS?
 - Frank Monterisi: It is not something he can control, how long it takes for them to come. In the previous hearing that he would have someone that lived within ten minutes that would be at the property if there was a complaint. He never referred that EMS would get there in ten minutes. He is giving an employee of his the authority to regulate his camp site.
 - Paul Deck: There will be responsibility of the camper, the RV person needs to behave. If they can't they need to leave. There will be some rules. We have worked on that draft, and it will be published once all of this is finalized and before the first site is rented.
 - Lisa Krolak: Are there rules for the golf course? What is the golf course clubhouse? Is a restaurant, does it sell alcohol?
 - Paul Deck: There are some rules. It is a small pro shop, there are locker rooms for ladies and men, and there is small snack bar in that area. It does serve alcohol and has a state license for that. We sell beer only there.
 - Scott Roach: We will bring municipal water to site, water main extension. On site Waste water system will meet or exceed any NC requirements for waste water. 125 gallons per day is what this system has been designed for. A soil scientist was on site and they evaluated the soils with multiple test pits which are roughly four or five feet deep to look at the soil strata. System will be laid out to regulations. It is similar to residences, just bigger. We will do the Soil and Erosion Sediment Control plan will be submitted to the state for them to disturb and develop the plan. We will get a NCDOT driveway permit. We met with Paul Deck's son, Brian for design for safety for driveway. Driveway is in the setback, but it's not considered a structure. People do fly on that road, this maximized location the site distance. I don't expect NCDOT would require any additional requirements. It won't be that large of a traffic impact.
 - Lisa Krolak: Mr. Deck mentioned access from Poors Ford Road cars, trails may be used for golf carts, but they would get to the golf course with cars. Did you consider that with the traffic?
 - Scott Roach: He could look at reducing the speed by NCDOT. He doesn't think NCDOT would allow golf carts on that road. You could request 35 mph on that road.
 - Frank Monterisi: It is NCDOT would be the ones that regulate the NCDOT requirements.
 - Michael Axelrod: If NCDOT doesn't approve, what do we need to do if it changes? They could have gotten this approved in advance.
 - Frank Monterisi: Mr. Roach if they have NCDOT approval for the driveway permit.
 - Scott Roach: They did not.
 - Frank Monterisi: If he doesn't get it, then he will have to come back to the Board.
 - Angela Luckadoo: Where the entrance was going to be.
 - Scott Road: Where it is marked on the site plan in the upper left hand corner.
 - Tyler West: The entrance is basically where there is already a little pull in, where the dumpster section are, a little paved area.

- Scott Roach: I believe that is it.
- Paul Deck: It is not paved right now.
- Scott Roach: RV Parks are the hottest thing going on right now. Trash is in the interior. We made sure there was enough radius to come in and out.
- Kathleen Van Arnhem: What about trash on the side of the road? What about drunk drivers?
- Scott Roach: These are not things that they can regulate.
- William Van Arnhem: Does the State approve septic tank meet the similar size in other areas. Does the state address that many within that footprint of land?
- Scott Roach: Absolutely. We are meeting the State requirements. We not going to do anything to harm the environment, that's why they hired us, to protect the environment.
- Betty Hill: How many acres are involved, 12 or 13 acres?
- Scott Roach, I believe the area is larger than the 7 acres mentioned earlier. I don't have a set of scaled drawings with me. Can't get you anything definite.
- Betty Hill: You haven't done any measurements?
- Scott Roach: This is the landscape architect's rendering. Phase 1 has 7.42 acres, which includes septic tank drain fields in the green area.
- Michael Axelrod: How can we approve the site plan, if this is not truly a survey? I don't think it is suitable for us to decide.
- Hal Green: I concur. Jana, can we adjourn this hearing, with an actual survey of what we are approving?
- Jana Berg: We would be continuing the meeting, not adjourning the meeting. As long as you set up another date, so everyone here knows when that meeting is and has the opportunity to come.
- Hal Green: It would be beneficial for all of us to come up with some very specifics questions of what would we need to move forward.
- Jana Berg: So what I've heard you say that you are inquiring about what is the acreage that is involved in this change, specific locations of drain fields and septic tanks. Is there something else?
- Hal Green: A survey so we can have specific amounts.
- Chris Jones: Is it going to make a difference to us if it is 6.5 sites or 8.5 sites per acre?
- Hal Green: It will on density and ratio.
- Michael Axelrod: Certain testimony that has not been presented having to do will not be detrimental injurious to property, property values. I don't think we have near enough information to make a determination.
- Lisa Krolak: If Mr. Deck had more people to present.
- Scott Roach: We can get it more dialed in as far total acreage and density.
- Michael Axelrod: That's part of it, but a lack of a true site plan.
- Scott Roach: It is a true site plan. A landscape architect drawing is a true site plan.
- Hal Green: What we are looking for is a survey which shows physically on this property. We need to know where the site plan is where they are going to put the site on the property, not a drawing, but an actual survey.
- Scott Roach: You can't do an as built survey with something that's not there. I can give you a site drawing with all the proposed RVs that meet

the 100 foot setback along with the roadways to get to it.

- Hal Green: But we want a boundary survey.
- Scott Roach: We have a boundary survey here. I actually have my civil drawings for soil and erosion permit.
- Hannah Lynch: Does Scott Roach wanted to submit it as evidence?
- Scott Roach: He could leave it.
- Lisa Krolak: If he could get additional copies for the board.
- Frank Monterisi: If we continue the meeting.
- Jana Berg: If we continue the meeting you can accept more exhibits. Having one of those with an easel make be helpful for the board and people in the audience to see. Testimony on how this will affect property values and property uses. Testimony about how this will be operated in a manner that will be in harmony with the area, rules. Whether it was going to injurious to health and safety, trash pickups, screening from the neighbors to make it more visually pleasing to them, quiet hours. Just throwing out some stuff, lighting downturned.
- Hal Green: You've got a body of water, it might be helpful with some water analysis.
- Jana Berg: The body of water is existing, unless there is going to more impervious surface, then we are dealing with storm water runoff, and address if it will or won't impact the property.
- Hal Green: Chris Jones: was concerned about a safety issue with the body of water.
- Chris Jones: If there are going to be any rules, no fishing, and no swimming. Need to address some rules.
- Scott Roach: The pond is a half mile away. What kind of test do you want?
- Hal Green: We are trying to give you a chance of addressing these questions, rather than just denying the permit.
- Lisa Krolak: Where the power point was where the people live. I need more information on who is being impacted.
- Hal Green made a motion to continue the meeting.
- Frank Monterisi: If we need to keep the same panel.
- Jana Berg: We do not. Just would recommend to have them listen to the audio.
- Scott Roach: If he could bring more exhibits to be submitted.
- Frank Monterisi: Yes, we are continuing the meeting.
- Michael Axelrod: There are more things than just the density question that need to be addressed.
- Scott Roach: He understood.
- Jana Berg: Let's set the date.
- Frank Monterisi: How much time will you need?
- Paul Deck: Two weeks.
- Scott Roach: Three weeks would work better.
- The board discussed dates and the meeting was set to be continued on October 4th at 5:00 p.m. A vote was taken, all in favor.

POLK COUNTY BOARD OF ADJUSTMENT

AGENDA ITEM

DECEMBER 5, 2023 REGULAR MEETING

Agenda Item#: A.

ATTACHMENTS:

Description	Type	Upload Date
Temple - Staff Report	Cover Memo	11/29/2023

To: Zoning Board of Adjustment

From: Cathy Ruth, Zoning Administrator

Date: December 5, 2023

Re: In the Matter of the Application of Gabe and Jami Temple for a Special Use Permit,
Docket No. 2023-03 (SU)

A. Action Requested by Board of Adjustment

1. Review all currently available information prior to meeting
2. Consider Variance Request

B. Background

1. In August 2023, Gabe Temple contacted the Planning office and requested information regarding a campground for property located at 52 Swiss Cabin Drive, Tryon, NC 28782, identified as Tax Parcel ID P106-18 in the tax records of Polk County, and consisting of approximately 26.08 acres. The property is located in the Multiple Use (MU) zoning district. Mr. Temple was provided a copy of the Polk County Zoning Ordinance, Special Use handout, an application and the Polk County Board of Adjustment Rules of Procedure for Quasi-Judicial Proceedings.
2. On September 1, 2023, Gabe and Jami Temple provided a completed application, applied to the Board of Adjustment for a Special Use Permit for a Recreational Vehicle (RV) Park and/or Camp Areas, and paid the \$100 fee. The hearing was scheduled for October 3, the applicant requested to remove their application prior to the hearing being completed. On October 18, 2023, Gabe and Jami Temple provided a completed application, applied to the Board of Adjustment for a Special Use Permit for a Recreational Vehicle (RV) Park, the application for two campsites, two geodomes, and one bathhouse. The hearing was scheduled for December 5, 2023 at 5:00 p.m.
3. The property, comprised of 26.08 acres, is identified as Tax Parcel P106-18 on the tax records of Polk County. The property is located in the Multiple Use zoning district.

4. Exhibits included:

- Exhibits XA consists of the General Application Form and site plan.
- Exhibit XB consists of the zoning permit/application and receipt of \$100.
- Exhibit XC consists of the recorded deed in the Register of Deeds Office dated October 6, 2022, Book 473, Page 1405.
- Exhibit XD consists of the recorded plat in the Register of Deeds Office dated November 24, 2015, Plat F 599.
- Exhibit XE consists of the Polk County Property Card tax record for P106-18.
- Exhibit XF consists of Polk County Geographic Information System (GIS) map, P106-18.
- Exhibit XG consists Google Map of parcel area.
- Exhibit XH consists of P106-18 and surrounding parcels' zoning from the Polk County GIS site.
- Exhibit XI consists of P106-18 and surrounding parcels' current uses from the Polk County GIS site, tax record.
- Exhibit XJ consists of the signed and notarized Affidavit of Mailing of notice of public hearing to adjacent property owners, property owner, and applicant; including map of adjacent property parcels and addresses.
- Exhibit XK consists of the signed and notarized Affidavit of Posting of notice of public and photos of posted signs.
- Exhibit XL consists of pictures taken by staff of the parcel.

BOARD OF ADJUSTMENT

IN THE MATTER OF THE APPLICATION
OF TEMPLE LAND GROUP LLC
(GABE & JAMI TEMPLE)
FOR A SPECIAL USE PERMIT

DOCKET NO. 2023-03 (SU)

NOTICE OF BOARD OF ADJUSTMENT HEARING

On September 1, 2023, Temple Land Group, LLC, (Gabe & Jami Temple) applied for a Special Use Permit for a campground for the property located at 52 Swiss Cabin Drive, Tryon, NC 28782, identified as Tax Parcel ID P106-18 in the tax records of Polk County, and consisting of approximately 26.08 acres. The property is located in the Multiple Use (MU) zoning district. The application was signed by the property owner, Gabe Temple.

A copy of the written application is available for review in the Office of the County Manager in the Womack Building, 40 Courthouse Street, Columbus, NC 28722, and the Planning Office, 35 Walker Street, Columbus, NC 28722.

The Board of Adjustment will open a public hearing on the request for a Special Use Permit on Tuesday, December 5, 2023, at 5:00 P.M. (local time) in the R. Jay Foster Hall of Justice in the Womack Building, 40 Courthouse Street, Columbus, NC 28722. The Board of Adjustment shall conduct an evidentiary hearing on the request and shall allow any interested party to appear, either in person or by agent or attorney.

AGENDA ITEM

DECEMBER 5, 2023 REGULAR MEETING

Agenda Item#: A.

ATTACHMENTS:

Description	Type	Upload Date
Taffaro Staff Report	Cover Memo	11/30/2023

To: Zoning Board of Adjustment

From: Cathy Ruth, Zoning Administrator

Date: December 5, 2023

Re: In the Matter of the Application of Craig Taffaro for a Special Use Permit, Docket No. 2023-04 (SU)

A. Action Requested by Board of Adjustment

1. Review all currently available information prior to meeting
2. Consider Variance Request

B. Background

1. On November 1, 2023, Craig Taffaro met with staff regarding an Animal Processing Facility at 584 Melvin Hill Road, Columbus, NC 28722, identified as Tax Parcel ID P126-190 in the tax records of Polk County, and consisting of approximately 16.44 acres. The property is located in the Multiple Use (MU) zoning district.
2. Craig Taffaro provided a completed application, applied to the Board of Adjustment for a Special use Permit for an Animal Processing Facility on November 1, 2023. The application was signed by the property owner, Craig Taffaro. The hearing was scheduled for December 5, 2023 at 5:00 p.m.
3. The property, comprised of 16.44 acres, is identified as Tax Parcel P126-190 on the tax records of Polk County. The property is located in the Multiple Use zoning district.
4. Exhibits included:
 - Exhibits XA consists of the General Application Form and site plan.
 - Exhibit XB consists of the zoning permit/application and receipt of \$100.
 - Exhibit XC consists of the recorded deed in the Register of Deeds Office dated November 15, 2021, Book 464, Page 2409.
 - Exhibit XD consists of the recorded plat in the Register of Deeds Office dated November 15, 2021, Book G, Page 87.

- Exhibit XE consists of the Polk County Property Card tax record for P126-190.
- Exhibit XF consists of Polk County Geographic Information System (GIS) map, P126-190.
- Exhibit XG consists Google Map of parcel area.
- Exhibit XH consists of P126-190 and surrounding parcels' zoning from the Polk County GIS site.
- Exhibit XI consists of P126-190 and surrounding parcels' current uses from the Polk County GIS site, tax record.
- Exhibit XJ consists of the signed and notarized Affidavit of Mailing of notice of public hearing to adjacent property owners, property owner, and applicant; including map of adjacent property parcels and addresses.
- Exhibit XK consists of the signed and notarized Affidavit of Posting of notice of public and photos of posted signs.
- Exhibit XL consists of pictures taken by staff of the parcel.

 NANCY BLACKWOOD**

**CRAIG PAUL TAFFARO III and wife,
 ABIGAIL FAITH TAFFARO**

**Address: 309 Viking Drive
 Columbia, SC 29229**

**Address: 5742 Coulee Place
 Charlotte, NC 28217**

Enter in appropriate block for each party: name, address, and, if appropriate, character of entity, e.g. corporation or partnership.
 The designation Grantor and Grantee as used herein shall include said parties, their heirs, successors, and assigns, and shall include singular, plural, masculine, feminine or neuter as required by context.

WITNESSETH, that the Grantor, for a valuable consideration paid by the Grantee, the receipt of which is hereby acknowledged, has and by these presents does grant, bargain, sell and convey unto the Grantee in fee simple, all that certain lot or parcel of land situated in Green Creek Township, Polk County, North Carolina and more particularly described as follows:

BEING THE IDENTICAL PROPERTY DESCRIBED IN THE ATTACHED EXHIBIT "A" WHICH IS INCORPORATED HEREIN BY REFERENCE AS IF FULLY SET FORTH

THE ABOVE DESCRIBED PROPERTY IS NOT GRANTOR'S PRIMARY RESIDENCE FOR PURPOSES OF N.C.G.S. 105-317.2(2).

This being the identical property conveyed to Jacob Curtis Blackwood, Sr. by deed from Gladys Blackwood, Sr. unmarried, dated March 7, 2006 and recorded in Book 340 at Page 904, of the Polk County Registry. Jacob Curtis Blackwood, Sr. died testate and a resident of Union County on August 16, 2007 and the above described property was devised to his children under the terms of Article III of the Last Will and Testament of Jacob Curtis Blackwood which is a matter of public record in Estate File 08E-176 in the Office of the Clerk of Superior Court for Polk County, North Carolina. This property being a portion of the property acquired by Grantors by instruments recorded in Book 367 at Page 515, Book 399 at Page 1980, Book 402 at Page 2444 and Book 403 at Page 686 all of the Polk County Registry.

A map showing the above described property is recorded in Card File G, Page 87.

TO HAVE AND TO HOLD the aforesaid lot or parcel of land and all privileges and appurtenances thereto belonging to the Grantee in fee simple.

And the Grantor covenants with the Grantee, that Grantor is seized of the premises in fee simple, has the right to convey the same in fee simple, that title is marketable and free and clear of all encumbrances, and that Grantor will warrant and defend the title against the lawful claims of all persons whomsoever except for the exceptions hereinafter stated. Title to the property hereinabove described is subject to the following exceptions:

- a. Subject to all rights of way for public utilities;
- b. Subject to all rights of way for public streets, roadways, and/or easements;
- c. Subject to any applicable provisions of the Polk County zoning ordinances.

IN WITNESS WHEREOF, the Grantor has hereunto set his hand and seal, or if corporate, has caused this instrument to be signed in its corporate name by its duly authorized officers and its seal to be hereunto affixed by authority of its Board of Directors, the day and year first above written.
